

Dear Residents,

Please find the attached U.S. Consumer Product Safety Commission (CPSC) publications that provide information on things you can do to help keep your home safe for children:

- CPSC Safety Alert – Seven Hidden Home Hazards
- Childproofing Your Home – 12 Safety Devices to Protect Your Children

We ask that you take the time to review these publications, to include the recommendations as they apply to window blind coverings. You will note that all window blind coverings in your home have warning stickers or labels on them and it is imperative that you take all necessary precautions to ensure the safety of children in all areas within your home where window blinds are present.

**Please do not remove these warning stickers or labels from the blinds as they are a very important safety reminder for your family as well as families who will reside in the home in the future.**

Thank you for your attention to these important safety guidelines and please contact your Community Management Office should you have any questions.

Respectfully,  
The Villages of Benning Team
