

To our Families,

We continue to monitor the COVID-19 pandemic, and The Villages of Benning is adjusting our operations and services to ensure they are consistent with the evolving recommendations of the U.S. Centers for Disease Control and Prevention (CDC), as well as the Occupational Health and Safety Administration (OSHA).

As such, we wanted to inform you of some of the Community Changes that support the health and welfare of our residents and employees. Effective now and until further notice, we are:

-Closing our Fitness Centers, Game Rooms and other common spaces in our Community Centers. The Village Offices will remain open for our resident services for now.

-Cancelling all Villages of Benning (VOB) hosted resident events.

-Asking residents and their families not to use the outdoor playgrounds. The walking trails are abundant here and we hope that everyone can take advantage of these.

-Requesting that residents notify us of anyone in your residence who may have been exposed to COVID-19, may have Flu-like symptoms, has recently traveled from an affected area, is under self-quarantine, or has tested positive for COVID-19, so that we may take proper precautions. Please see the link here to refer to the Travel Section of the CDC website: <https://wwwnc.cdc.gov/travel/notices>.

For military families that have recently been affected by the changes in PCS orders, please call your Village Offices, as we are committed to working with all families to accommodate your needs. We will also be contacting all families with Notices to Vacate in to review your current needs.

For families that do not wish us to enter your home at this time, please just give us a call, and we will accommodate your request. Our Self-Help is currently open and available for most items that you need in your home.

VOB employees and contractors have been advised of the CDC and OSHA guidelines. To support the CDC guidelines for "social distancing", we request that residents as much as possible use our website, Active Building, and the telephone to connect with us.

If you are not set up with Active Building, please contact your Village Office and we will assist with this process. Active Building currently has the ability to send "Push Notifications" and Text Messages, so we ask that you sign up for this as soon as possible, and provide your cell number, so that we may use this as another means of communication with our families.

Please make sure that the Villages of Benning has your current contact information, both email and cell phones, so that we may continue to keep you and your family informed. Please refer to the CDC Website for more and continuing updated information on how we can work together regarding the COVID-19 pandemic: <https://www.cdc.gov/coronavirus/2019-ncov/index.html>.

We will continue to update our website and FaceBook pages as our services need to be adjusted. Thank you for your patience and understanding as we move forward.

As always, thank you for your service, and it remains our honor to support and serve our military members and their families.

Denise
Regional Manager/Community Director
